PROJECT OVERVIEW:

The app connects content creators, talent managers, merchants, and viewers in a dynamic ecosystem. Content creators can upload videos, go live, and engage in games, while talent managers oversee creators and manage sponsorships. Merchants create campaigns to sell products, and viewers can interact with content, join live streams, and subscribe. Monetization includes subscriptions, gifts, and campaigns, with Google AdMob integrated for ads. The app features live games like Box Battle and Karaoke, and an AI model filters content. The platform ensures smooth management with separate services for games, streaming, and monetization.

PROJECT PURPOSE:

The purpose of this app is to create a multifaceted platform that connects content creators, talent managers, merchants, and viewers, facilitating collaboration and monetization. It enables content creators to upload videos, livestream, and engage with their audience through interactive features like games and live chats. Talent managers can manage creators, connect them with brands, and oversee sponsorships. Merchants can run promotional campaigns and collaborate with content creators to boost product sales. The platform integrates diverse revenue streams, including subscriptions, gifts, and advertisements via Google AdMob. It also includes a robust AI model for content filtering, ensuring a safe and engaging user experience. This app aims to empower influencers, businesses, and viewers with seamless connectivity and enhanced engagement.

FEATURE LIST:

Content Creator:

- **Account Creation & Profile Setup:** Create an account and personalize the profile (Name, Profile Picture, Bio).
- **Video Uploading & Streaming:** Upload videos from the gallery or go live for real-time engagement.
- **Subscription & Gifts:** Enable followers to subscribe and send virtual gifts during live sessions.
- **Campaign Promotion:** Participate in merchant campaigns and promote products via videos or live streaming.
- **Live Chat:** Interact with viewers through one-to-one or group chats.

- **Monetization:** Earn through ads, gifts, and campaign participation.
- **Content Management:** Manage uploaded videos and live streams in the profile.

Talent Manager:

- **Account Creation & Profile Setup:** Create an account and manage a list of content creators.
- **Talent Management:** Add, remove, or edit content creators under their management.
- **Sponsorship & Campaign Management:** Link content creators with merchants for promotional campaigns and track performance.
- **Request & Proposal System:** Send proposals to content creators for collaboration and manage contracts.

- **Analytics Dashboard:** View stats on campaign performance, earnings, and content creator metrics.
- **Talent Scouting:** Search for content creators and send open invites to join the platform.

Merchant:

- **Account Creation & Profile Setup:** Create an account to manage products and promotional campaigns.
- **Campaign Creation:** Initiate product promotions and set campaign budgets, goals, and duration.
- **Partnership with Content Creators:** Partner with content creators for product promotion via videos and live streams.
- **Ad Campaigns:** Utilize Google AdMob for ad monetization on the platform.

- **Payment Management:** Pay talent managers and content creators for their promotional efforts.
- **Analytics Dashboard:** View statistics on product sales, campaign success, and content creator performance.
- **Customer Engagement:** Interact with content creators for feedback and promotion strategies.

Viewer:

- **Account Creation & Profile Setup:** Create an account to follow content creators and receive notifications.
- **Subscription:** Subscribe to content creators for exclusive content and ad-free experiences.
- **Live Streaming & Interaction:** Watch live streams and interact through comments, likes, and gifts.

- **Campaign Participation:** Participate in promotional campaigns by following or purchasing products from creators.
- **Notifications:** Receive alerts for new content, live sessions, or promotions from subscribed creators.
- **Social Sharing:** Share content or live streams on social media platforms to increase visibility.

Admin:

- **User Management:** Monitor, approve, and manage all user accounts (Content Creators, Talent Managers, Merchants, Viewers).
- **Content Moderation:** Oversee the uploaded content and ensure compliance with platform guidelines using AI-based content filtering.
- **Platform Analytics:** Track overall platform performance, including user activity, ad revenues, and campaign outcomes.

- **Ad Management:** Configure and manage the integration of Google AdMob for ad campaigns.
- **Payment Management:** Handle payments to content creators, talent managers, and merchants.
- **Reporting & Compliance:** Generate reports and ensure platform adherence to legal and financial standards.

DEVELOPMENT PROCESS:

- Backend development

DELIVERABLES:

- User Mobile App original APK file
- Source Code of the mobile app
- The app would be for Android and iOS

Technology Stack:

Server-Side Development:

- Framework: Django/Django REST framework
- Language: Python (Django)

Hosting and Server Management

- Platform: AWS (Amazon Web Services) & Digital Ocean or Google Cloud Platform (GCP)
- Services: EC2 (virtual servers), S3 (file storage), CloudFront (CDN)

Real-time Features

- WebSockets(for real-time notifications and direct messaging)

Payment Integration:

- API: Stripe API for online payments

Database Management

- PostgreSQL

PRICE AND TIMELINE:

Step	Task	Technology	Time	Price
2nd Phase	1st phase Backend Development	Django PostgreSQL as a Database	90 days	\$1500 (USD)
3rd Phase	2nd phase Backend Development	Django PostgreSQL as a Database	60d ays	\$1500 (USD)
4th Phase	QA testing & publishing	As per policy	As per policy	FREE
Total timeline & price:			120 Days	\$3,000 (USD)

Total Cost: USD \$3,000

Timeline: 150 days

“After delivery, I’ll provide **90 days (4 months)** of ongoing support for free.”

Your dreams, our duty.

FLEXIBILITY & COLLABORATION:

We understand that each project has unique requirements, and we are committed to working closely with you to ensure the final product aligns perfectly with your vision. We are flexible in accommodating adjustments to the budget or timeline to meet your expectations.

To keep the project on track, we'll hold bi-weekly progress meetings and provide regular updates. You'll also have direct access to us via messaging or Zoom calls for any support or clarification.

CONCLUSION:

This app serves as a comprehensive solution to integrate content creators, talent managers, merchants, and viewers into a dynamic and profitable ecosystem. Incorporating monetization options such as subscriptions, gifts, and ads, it provides opportunities for all users to benefit. The app's game features, live streaming, and AI content filtering offer enhanced interactivity and engagement. With its user-friendly interface and robust back-end management, the platform ensures smooth operation and scalability. As the app evolves, it has the potential to become a leading platform in the influencer and marketing space, fostering growth for both creators and businesses.
